# Aruba Nexus Layouts

---

## Aruba – Nexus Layouts

### Aruba

Trusted by generations of architects and installers alike, Aruba is specified and purchased throughout the UK almost every single day. It can be found everywhere from hotel reception areas to classrooms, from GP surgeries to offices.

Aruba's finely sanded surface texture gives these ceiling tiles an attractive finish. Its enhanced acoustical performance makes it ideal for a wide range of suspended ceiling designs.

### Aruba with Nexus Layouts

Elevate the aesthetic of any space with Nexus Layouts, Zentia's innovative ceiling solution that brings style, flexibility, and ease to your ceiling design. Nexus unites square and rectangular ceiling tiles of two sizes in striking repeatable arrangements that bring order and visual rhythm to the ceiling. Whether you're aiming for bold statements or subtle sophistication, Nexus Layouts allows you to creatively mix and match module sizes and layout patterns, all with minimal components. Nexus Layouts offer a range of predefined patterns or the ability to create custom designs with the help of our in-house team.

**Aruba Nexus Layouts are only available in Global White.**

## Nexus Layouts – Array

The **Array** ceiling pattern shown in the image is a modular, repeatable layout that creatively combines square and rectangular tiles to generate a structured yet dynamic visual rhythm.

This pattern is ideal for modern commercial spaces or creative environments where ceilings serve as architectural features, not just functional surfaces. The visual rhythm guides the eye and provides both order and interest, enhancing the overall atmosphere of a space.

Profile	S Single Tee Adaptor Clip	

### Components required for 3.6m x 3.6m space

QTY	Part Number	Description
2	BPGMR243600	Gridline 24 - 3600mm Main Runner
15	BPGXTB241200	Gridline 24 - 1200mm Cross Tee - Butt-Cut
9	BPGXTB24600	Gridline 24 - 600mm Cross Tee - Butt-Cut
15	BPSTAC	Single Tee Adaptor Clip
Trims		
4	BPT1932HC	Perimeter Trim 3000 x 19 x 32mm
Tiles		
18	BP5460M4A	Aruba 600 x 600mm
9	BP5461M4A	Aruba 1200 x 600mm

Gridline 24 Butt-Cut available in Global White, Black or 35 colours.  
Gridline 24 Joggled available in Global White or Black.

## Nexus Layouts – Exclaim

The **Exclaim** ceiling pattern presents a clean, vertically aligned design that emphasizes structure and height through orderly repetition.

This pattern is ideal for environments that require a refined, understated aesthetic, such as corporate offices or retail interiors. The structured repetition helps visually elongate spaces, making ceilings feel taller while maintaining a sense of coherence and elegance.

Gridline 24 Joggled available in Global White or Black.

## Nexus Layouts – Berg

This ceiling pattern showcases a symmetrical, grid-like composition that balances central focus with structured edge framing, using two sizes.

This pattern is suited to feature ceilings or zones of visual emphasis, such as building entrances, lobbies, or collaboration areas. Its centralised design logic makes it particularly effective when viewed from below in a square or rectangular room, anchoring the ceiling with elegance and rhythm.

## Nexus Layouts – Pixal

This ceiling pattern presents a bold, vertically stacked layout, offering a confident and contemporary aesthetic ideal for larger spaces seeking rhythm and uniformity.

This pattern could be used in corridors, open-plan offices, or commercial interiors where a linear, directional design can support wayfinding, visual clarity, or spatial elongation. Its minimal palette and repetition allow it to act as a clean backdrop while still adding depth and texture to the ceiling.

## Nexus Layouts – Step

This ceiling pattern features a high-contrast, vertically aligned structure that offers architectural rhythm and a contemporary edge.

This pattern is perfect for open-plan environments, large commercial interiors, or hospitality venues seeking a commanding ceiling aesthetic. The staggered rectangular tiles help ground the space while providing repetition that subtly guides the eye through the interior space.

## Aruba – Nexus Layouts

### Single Tee Adaptor Clip (BPSTAC)

The Single Tee Adaptor Clip is the key component that makes all Nexus Layouts possible. By securing a single cross tee into a main runner's rout hole, the BPSTAC enables non-standard patterns and unique configurations, giving complete freedom to create custom Nexus ceilings. Easy to install and highly versatile, it empowers innovative designs without compromising stability or performance.
