

sonify 
by  zentia

Sonify is a customisable discontinuous ceiling solution that delivers on creativity and design as well as ease of installation with unrivalled precision and accuracy.

 zentia

Key Features

- // The Sonify Create range of suspension solutions features a revolutionary patented grid system that facilitates installation with unrivalled accuracy with minimal panel sway
- // Sonify 3D Studio is a pioneering purpose built configurator that simplifies the creation complex ceiling designs
- // Export designs as Revit models to seamlessly integrate with digital workflows and support the Golden Thread
- // Each design is ordered using an assigned kit ID and supplied as a 'kit of parts'
- // Available in a wide range of standard colours and 17 shapes
- // Outstanding acoustic performance: Reduce noise levels, increase speech intelligibility and reduce reverberation time in the space
- // Ideal for a multitude of environments including hospitality, education, retail and commercial spaces

The quoted RAL codes are the nearest match to the Zentia colour and are to be used as a guide. Please note that even though great care has been taken to ensure a correct colour match, every individual sees colour differently. Please be aware, monitors or mobile displays have varying capabilities when displaying colours accurately. We recommend requesting a sample prior to specification and ordering.

If you would like to order a sample please visit our website www.zentia.com

Grid & Bracket Colours

The grid and brackets are available in Black, White and Galvanized finishes. Capping can be painted in all 35 standard colours as shown above.
