# Sonify Acoustic Canopies, Baffles & Wall Absorbers

---

It's now easier than ever to put your personal stamp on acoustic ceiling and wall systems. Absorb sound beautifully with Sonify by Zentia. A canopy and baffle ceiling solution with complementary wall absorbers, Sonify gives you the opportunity to create something unique and exciting, yet achievable for every project.

## Advantages of Sonify over standard baffles & canopies

- 35 colours and 17 shapes
- 3D Studio, CAD support and Revit models
- Speed of installation – up to 50% faster than other systems
- Ease of access to services
- Unrivalled lead times
